

LEADMN
COLLEGE STUDENTS
CONNECTING FOR CHANGE

On September 5th, the U.S. Government rescinded the Deferred Action for Childhood Arrivals program (DACA). This decision impacted over 700,000 people nationwide and discourages nearly 300,000 students from continuing education. It is our fundamental responsibility to protect students and that means protecting our DACA-eligible peers who have been raised and educated in America and who have contributed so much to our communities. It is critical that we advocate for students and urge Congress to pass a permanent solution to DACA.

Urge Congress to adopt a permanent solution to DACA so that DACA-eligible students can continue to pursue their education and dreams!

Dear Member of Congress,

I am writing to urge you to immediately adopt a permanent solution for DACA-eligible students so that 6,000 Minnesota students and over 700,000 individuals nationwide no longer have to live in uncertainty. We cannot turn our back on students. The time to protect students is now as over 86% of Americans agree that **Congress must pass bipartisan legislation to ensure that DACA-eligible individuals can continue their education and pursue their dreams.** It is our moral responsibility to protect students and that means protecting DACA-eligible individuals who have been raised and educated in America and who have contributed so much to our communities. Congress must take action immediately to support DACA-eligible individuals.
